

AIR-POWERED HOPPER LOADER

Quieter than Vacuum Loaders
Safer and More Efficient than Hand-Loading

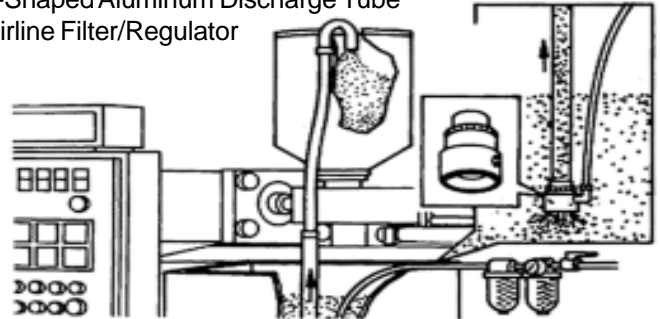

Easy Setup **No Maintenance** **No Breakdowns**

- The **LOWEST COST** hopper-loading machine available.
- Compressed air is continuously connected. When hopper fills, back pressure stops material flow.

Conveys as much as 300 lbs/hr

Includes:

- .80" intake Diameter Airflow Amplifier
- 3' x 1-1/4" Aluminum Feed Tube (Probe)
- 10' x 1-1/4" Flex Hose
- J-Shaped Aluminum Discharge Tube
- Airline Filter/Regulator

AHLS125	Standard Air-Powered Hopper Loader	\$486.00

PROBE MAGNETS

Your first line of defense against stray pieces of steel in your material*

- Fits probes from 1-1/4" to 2" dia.
- Gap easily adjustable for different materials.
- Installs with two standard hose clamps.

Prevents probe blockage from gaylor liner bags being sucked into probe.

Helps prevent:

- Clogged Nozzles
- Scored Feed Screws and Barrels
- Torn Hopper Loader Filters
- Contaminated Parts
- High-Power Alnico Magnet.
- Welded Stainless Steel Shell and Bracket ensure long-term use.
- Concave Top Surface provides pocket to keep trapped pieces from being wiped off by flowing plastic.
