

# PLASTIGRIP™ FLASH-TRIMMING KNIVES

## For Injection, Roto and Blow Molding

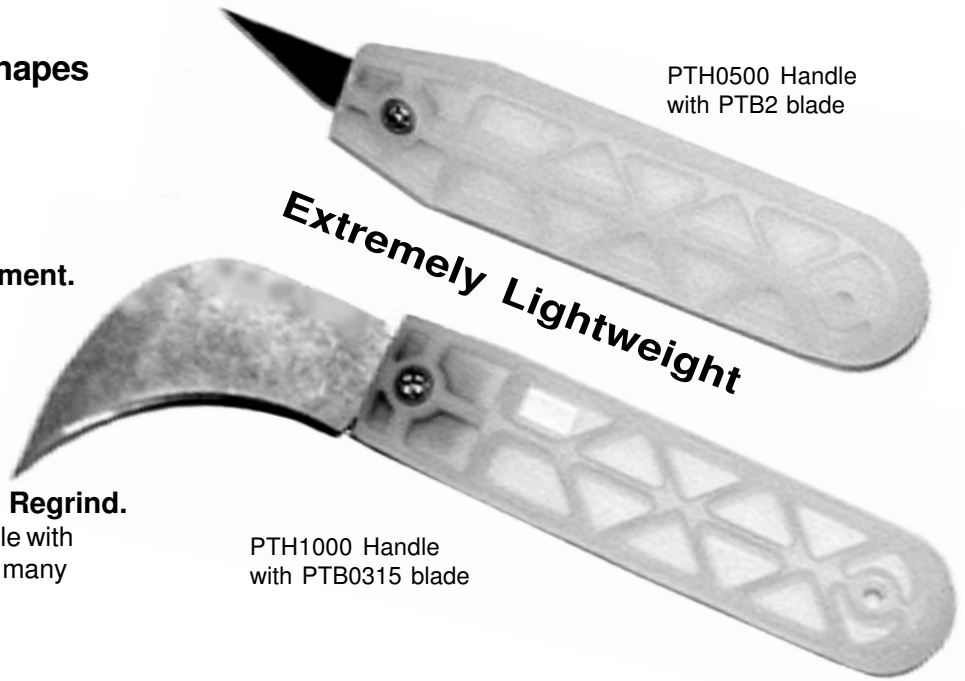

- Unique handles are injection molded Polypropylene.
- Handles are durable and comfortable.
- Choose from a variety of sharp, tough blades.
- **Excellent for trimming all shapes and sizes of molded parts**
- **Lightweight, easy to use**

### Minimize Damage to Your Equipment.

- No thick metal sections to damage granulator blades
- Blade and fasteners are small enough to be caught by your hopper magnet.

### Minimize Contamination of Your Regrind.

- Polypropylene handles are compatible with roto and blow molding materials and many injection materials.
- No colorant used.

# CUT-RESISTANT KEVLAR® GLOVES

**Help protect your operators from knife cuts.  
Essential for flash-trimming.**

- **5 Times Stronger by Weight Than Steel** for maximum protection against cuts.
- **3 to 6 Times Longer-Lasting Than Cotton** for maximum value.
- **Protect Against Heat** for increased safety.
- **Medium weight, Flexible, Breathable Knit** for operator comfort and dexterity.
- **Machine Washable** (drip dry) for comfort and hygiene.
- **100% Kevlar**

**Standard Length**

**7-gauge Kevlar®. - Heavier gauges available**

**Sleeve Protectors also Available**

## 2-sided Grip-Coated Kevlar® Gloves

*Grip Coating:*

- Decreases required level of operator effort.
- Improves glove longevity.
- Improves cut resistance.

## Uncoated Kevlar® Gloves

- Provide maximum dexterity.
- Minimize cost.
