

Rigid Polypropylene GAYLORD COVERS

Prevent Material Contamination

Four ways better than fabric covers:

- You can remove the cover without dumping dust into the material.
- The corners never flop into the gaylord of material, like fabric covers do.
- Waterproof and Oilproof.
- No elastic to wear out and get brittle – especially in the presence of the chemical liquids and gases found in the molding shop.

Filtered port keeps shop dust out of your material, while letting make-up air in.

SPECIFICATIONS

- 2" Probe Inlet
- 1/4" Thick Polypropylene
- 2-1/2" Automotive Air Filter

PART #	Description	PRICES
GC4846	48" x 46" x 5-5/8" (inside dimensions)	Call for Pricing
