

# DOUBLE EAR HOSE CLAMPS

A top quality clamp, offers you a tight seal of the water line coupling onto the hose. The double-ear design will not damage the hose – unlike low cost, screw-type clamps.

- **Stainless Steel**
- **Provides tight, positive closure**
- **Zinc Plated Available. . . Inquire**

### EASY TO INSTALL

- 1.) Slip onto hose.  
Close one side all the way.
  - 2.) Close the opposite side.
- The first ear will slightly open. Do not close it. This will add strength to clamp to give a spring-like action to hold against pressure.

**- NOTE -**

When ordering, select Nominal Size nearest to, but always larger than O.D. of hose to be clamped after insert has been fitted.

PART #	Nominal I.D.	Actual I.D.		Width	Thickness	Inner width of ear	PRICE each
		closed	open				
0041	5/32	.122	.161	.138	.0197	.0591	\$ .22
